

THE TRADE GROUP

TIME MACHINE

HAS LANDED

Everything about the **NEW** and **ultra fast Trademaster T800** Gas Analyser and Smoke Meter is **technically advanced** and designed to **propel your business into the future**, with a major emphasis on **saving time and money**. Features normally found as options on other machines are standard on the Trademaster T800.

- **Ultra fast** BET test – minimising the test duration when time is money.
- **Superb graphics** – ensuring **fast**, easy and clear test routine control for users.
- A Gas Analyser and Smoke Meter measurement system with **proven reliability**, minimising downtime.
- **Infra red remote control** – ensures **ease** and **speed** of use for the operator.
- **Bluetooth** engine speed, oil temperature and Smoke Meter communication – provides **one man operation** and a tidy working area.
- **Ergonomic, robust, attractive** and **practical** workshop trolley which is both strong and manoeuvrable.

- **Large 19" swivel LCD** screen is mounted to maximise user visibility.
- **A4 colour printout** provides clear and easy to read results presentation.
- User **choice** of screen colour and graphics allows personal user information for fast comprehension of the results.
- Industry standard PC, keyboard and optical mouse **as standard**.
- **Nationwide** back up and calibration service available from experienced, local, **qualified engineers**.
- **Extended Warranty as standard**.
- **Outstanding** value for money packages and financial arrangements from The Trade Group.
- **Contact us now for more information** or for a **demonstration**
